

Product Code . EL-MLE-10402

Ring of Theorem

Description

Ring of Theorem

Ring of a theorem is used to investigate the properties and theorems related to circle such as a sum of opposite angles of a cyclic quadrilateral is supplementary, an angle in a semicircle is a right angle; angles in the same segment of a circle are equal etc.

This manipulative is provided with a rubber band and a reusable storage box.

Innumerable combinations.

It helps in investigating the properties related to circles, squares, rectangles, triangles, pentagons etc.

Help in Laying a strong foundation.
