

Product Code . EL-M-10992

Binocular Stereo Zoom Microscope

Description

Binocular Stereo Zoom Microscope

Professional stereo microscope with pillar stand has long working distance to enable users to perform work or manipulate large items, including circuit boards and dental appliances.

Binocular viewing head with pair of 10x super-widefield eyepieces, adjustable interpupillary distance, fixed 45-degree vertical inclination to reduce eye and neck strain, and 360-degree rotation capability to enable sharing.

0.7x-4.5x zoom objective provides continuous zoom magnification and longer focal length for inspecting large-scale specimens, and a 0.5x Barlow lens extends the working distance.

Removable rheostat-controlled 64-bulb LED ring light provides intensity control and bright, cool light for working with temperature-sensitive or live specimens.

Pillar-style table stand has reversible black and white stage plate to provide contrast with light- and dark-colored specimens, and large stage clips to secure the specimen during viewing.

Educational Lab Equipments are leading manufacturers, suppliers of Binocular Stereo Zoom Microscope. Contact us to get high quality Binocular Stereo Zoom Microscope for schools, colleges, universities, research labs, laboratories and various industries.
