

Product Code . EL-EELE-11241

A.C Alternator And Synchronous Generator

Description

A.C Alternator And Synchronous Generator

For the non stop performance, the perfect quality copper conductors of insulated materials are used. D.C Motor coupled with A.C Alternator (Non Salient pole or Rotating arm type). In order to have low noise we designed these in Tilted construction rotors with exact balance. Bearings available in large size for trouble free and longer life operations. Permeability steel in high quality used to make outer yokes. Non salient type and fixed pole type revolving armatures. To avoid any sort of mishap during operations, special guards are fitted on the couplings.

We are leading manufacturers, suppliers of A.C Alternator And Synchronous Generator for Electronics Engineering Lab Equipments. Contact us to get high quality A.C Alternator And Synchronous Generator for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
