

Product Code . EL-EELE-11314

## DC Machine Lab

### Description

---

#### DC Machine Lab

The product provides hands-on experiments like Speed control, Torque- Load Characteristics, NV Characteristics, N-I Characteristics etc. The trainer thus provides explicit understanding of the subject. DC Machine Lab is an adaptable training system for the Electrical laboratories. It can be aptly employed for understanding the basic concepts and functioning of DC Motors and Generators.

Features:-

- Shaft Coupling arrangement.
- Exclusive and rugged designed panel.
- Stand alone operation.
- Designed by considering all the safety precautions.
- High quality meters.
- DC Shunt Machines.
- Electrical Loading arrangement up to 1.2KW
- Diagrammatic representation for the ease of connections.
- Provided with an extensive e-manual.

---

We are leading manufacturers, suppliers of DC Machine Lab for Electronics Engineering Lab Equipments. Contact us to get high quality DC Machine Lab for Electronics Engineering Lab Equipments for schools, colleges, universities, research labs, laboratories and various industries.
